Academic support and assistance is available to you and your child through the unique messaging system built into our curriculum. When your child has a question, all he or she needs to do is message their teacher without ever leaving the curriculum! A message is immediately sent to your child's teacher with a question or comment from your child. Or, you may call your child's teacher toll free.

A personal Guidance Counselor is available to help facilitate your education and answer any questions you may have and is your main point of contact on issues that pertain to the academy. Your Guidance Counselor is available by email or toll free phone number.

Immediate Feedback: All assignments, quizzes, tests, and projects completed by your student are submitted online to their personal student file. Quiz and test grades are posted immediately upon their completion, and written assignments and projects are graded by LUOA teachers with accompanying feedback provided to students within 48 hours.

When we enrolled Maddie in Liberty Online Academy it was mainly to save some time for me. As a mother of four small children with two in school, I was driving back and forth to our private school sometimes several times a day. It was not unusual for me to spend more than two hours a day in the Suburban, since the school was 25 miles away. The freedom of the school schedule, the savings in tuition from the previous school, and time traveling back and forth has really been a life saver for our family. Even more so now that the cost of gas has increased! Maddie enjoys her coursework with Liberty so much it's hard to get her off the computer some days! I can't say enough about how much this program has changed our lives. Thank you Liberty for the Online Academy!

"Let me just say, I am very grateful for Liberty University Online Academy. We do not have good options in our area for private school education and have become more aware of just how inferior the academic, and spiritual education in the public school environment is for our children. For parents like myself, I am so grateful for LUOA. Thank you for all you are doing to help all of us parents out who have needed this kind of an alternative."

Joshua Owenby
LUOA Student

At first, I was concerned it might be too easy for Josh. Now, I believe he is being challenged much more and is receiving a much better education than he would have, and that is not even mentioning how his Christian worldview is being reinforced! So, here is a great big THANK YOU for all you are doing. God bless!"
